

PROFESSIONAL SUMMARY

Self-taught full-stack developer with 3+ years building production-level web and mobile applications using React, React Native, Node.js, and modern JavaScript. Specialized in complex features including peer-to-peer networking (WebRTC), on-device AI/ML, and advanced state management with third-party API integrations.

FEATURED PROJECTS

Sharbee — *Electron, Next.js 16, React 19, Socket.io, Node.js*

[sharebee.app](#) — Published in Microsoft Store

- Built and published production desktop app for local file sharing and real-time chat (Microsoft Store distribution)
- Implemented streamed file transfers with backpressure handling for multi-GB files with flat memory usage
- Developed host/guest architecture with mDNS auto-discovery and automatic failover
- Integrated auto-update system via GitHub Releases and MSIX packaging for Windows Store

Picto-Nomo — *React Native, WebRTC, Google ML Kit, Expo*

[Local-first photo transfer app with AI categorization](#)

- Built peer-to-peer photo transfer using WebRTC for direct device-to-device communication
- Implemented on-device AI categorization using Google ML Kit for privacy-first image analysis
- Developed mDNS/Bonjour auto-discovery with QR code fallback and chunked file transfer system

Mediaq — *Next.js, Supabase, React, SQL*

[mediaq.io](#) — Social media consumption platform

- Architected full-stack app with Next.js and Supabase for media queue management
- Engineered complex dependency-based "locking" system for creating progression chains between media items
- Integrated JustWatch and Green Man Gaming APIs with social features and real-time dashboard

PROFESSIONAL EXPERIENCE

Healing Warriors Inc, Houston, TX — *Web Developer*

JANUARY 2023 – PRESENT

- Developed and maintained user-friendly website to enhance organization's online presence
- Built custom features using HTML5, CSS3, and JavaScript for improved user engagement

Delta Millwork, Houston, TX — *Website Maintenance*

OCTOBER 2024 – JUNE 2025

Managed website content updates and digital presence for manufacturing company

EDUCATION

University of Houston, Houston, TX

GRADUATED MAY 2011

Bachelor of Science, Hotel/Restaurant Management

TECHNICAL SKILLS

Frontend

React, React Native, Next.js, Redux, HTML5, CSS3, JavaScript (ES6+)

Backend & Database

Node.js, Express.js, Supabase, MongoDB, SQL, REST APIs

Mobile & Advanced

Expo, React Native Reanimated, WebRTC, Google ML Kit, Peer-to-Peer Networking

Tools & Practices

Git/GitHub, npm, Responsive Design, SEO, API Integration, AI-Assisted Development

ADDITIONAL BACKGROUND

10+ years professional experience in customer service and hospitality management, providing strong communication skills and client-focused problem-solving abilities
